## **INTRODUCTION**

These regulations contain the rules about application, enrolment, re-enrolment, and termination of enrolment for the degree course Master Molecular Life Sciences at HAN University of Applied Sciences for the 2022-2023 academic year.

These regulations do not apply to enrolment for post-bachelor courses, training courses, or master courses without public funding. This group of applicants can find the rules concerning them in the general terms and conditions for the contract they signed with the relevant post-bachelor degree course, training course or unfunded master course.

## TERMS AND DEFINITIONS AND ABBREVIATIONS

Applicant	Someone who is thinking about getting enrolled for a HAN degree course or who has applied but whose enrolment is not yet finalised.
Application	An enrolment application for a degree course at HAN.
Dean	The person who is appointed as such and who directs a HAN school.
Executive Board	The institutional board of HAN.
Tuition fees	The tuition fees as defined in section 7.43 et seq. of the Higher Education and Research Act, which a student must pay annually.
Entry Assessment Committee	Committee that decides (on behalf of the Executive Board) whether an applicant is suitable for the degree course.
DUO	Dienst Uitvoering Onderwijs (education executive agency).
External student	A person enrolled at HAN as an external student as defined in article 7.36 in conjunction with 7.32 of the Higher Education and Research Act.
HAN	HAN University of Applied Sciences
Re-enroller	A student who is enrolled or was previously enrolled in a degree course at HAN and is enrolling at HAN again.
Enrolment	An enrolment as defined in article 7.32 for a degree course at HAN.
Institutional tuition fees	The tuition fees as defined in article 7.46 of the Higher Education and Research Act for students not eligible for statutory tuition fees. These fees must be paid by the student for each academic year the institutional board enrolls them in a degree course.
Degree course	The degree course in Master Molecular Life Sciences.
Post-propaedeutic phase	The main phase of the bachelor course; the part of the degree course that follows after the final assessment for the propaedeutic phase.
Student	A person enrolled as a student, as defined in article 7.34 in conjunction with article 7.32 of the Higher Education and Research Act, in a degree course at HAN.
Academic year	The time period starting on 1 September and ending on 31 August in the following year.
Matching advice	The advice as defined in section 7.31b, paragraph 3, of the Higher Education and Research Act that an applicant receives after doing the matching programme.
Matching programme	The matching programme in article 7.31b, paragraph 1, of the Higher Education and Research Act, which aims to provide insight into the applicant's suitability for the chosen degree course.
Studielink	The joint application and enrolment software used by universities of applied sciences, universities and DUO.
Higher Education and Research Act	Higher Education and Research Act ( <i>Wet op het Hoger Onderwijs en Wetenschappelijk Onderzoek</i> ).
WSF2000	Student Finance Act 2000.

## 1 APPLICATION AND ENROLMENT. GENERAL PROVISIONS.

### 1.1 Applying via Studielink

#### Application

Anyone wanting to enrol in an associate degree, bachelor or master course at HAN can apply from 1 October prior to the academic year via Studielink ([www.studielink.nl](http://www.studielink.nl)). A student who wishes to switch degree courses or who wants to start their degree course again after stopping also has to apply via Studielink.

We advise EU-students interested in the degree course to contact the education programme ([master.mls@han.nl](mailto:master.mls@han.nl)) to negotiate about suitability before applying via [studielink.nl](http://studielink.nl).

HAN has set the following application deadlines for starting a degree course in September of the next academic year:

<b>Degree course</b>	<b>Application deadline</b>
Bachelor and associate degree, full-time	15 August, 24:00
Bachelor and associate degree, part-time/work-study	31 August, 24:00
Master/Full-time/Part-time/Work-study	31 August, 24:00

#### Applicant from the Netherlands

An applicant with an official Dutch residential address and a Citizen Service Number (BSN) is required to apply in Studielink using a DigiD. An applicant who does not yet have a DigiD is advised to request one in a timely manner. It takes at least five working days before the applicant receives their DigiD.

#### Applicant from a country outside the EU

An applicant with a residential address abroad cannot use DigiD. They still have to apply via Studielink. In that case the applicant has to make a Studielink account using their own email address via the website ([www.studielink.nl](http://www.studielink.nl)). If applicants have any questions, they can contact the Admissions Office at [admission@han.nl](mailto:admission@han.nl).

#### Correspondence and change of personal data

All correspondence concerning application, enrolment, re-enrolment and termination of enrolment must be emailed to the email address linked to the Studielink account. The applicant is responsible for making sure these details are correct. The applicant must make changes to their contact details and/or personal data via Studielink in a timely fashion. After the applicant has met all enrolment and admission requirements, information concerning education will be emailed to the email address linked to the HANaccount.

#### Personal verification

The applicant's personal data will be verified. This can be done in two ways:

- An applicant who lives in the Netherlands logs into Studielink using their DigiD. Based on this, their data is verified in the Personal Records Database (BRP).
- The applicant with an address abroad has to submit a copy of a valid ID (passport or ID card), possibly along with a Dutch residence permit, to the Student Administration Office ([sia@han.nl](mailto:sia@han.nl)).
  - When sending the copy, be sure to block the Citizen Service Number (BSN), also in the number series at the bottom.
  - Write on the copy of the ID that it is a copy.
  - Also specify the party for which the copy is intended.
  - And specify the date on which the copy was issued.

#### International students and checking legitimate residence

An applicant with a non-EER nationality, in accordance with the Aliens Act, must submit a copy of a valid Dutch residence permit and a valid ID to the Student Administration Office ([sia@han.nl](mailto:sia@han.nl)).

During the enrolment at HAN the student must be legitimately residing in the Netherlands. The Student Administration Office checks these data based on the guidelines in the Higher Education and Research Act, the Benefit Entitlement (Residence Status) Act and the Code of Conduct for International Students in Dutch Higher Education.

## **1.2 Application dates**

#### Applying for a bachelor or associate degree course

Enrolment applications for a bachelor course or associate degree course must be submitted no later than on 1 May at 24:00 prior to the academic year.

When an applicant applies for higher education no later than 1 May, they are entitled to be admitted to the degree course provided they meet the admission requirements. For application after 1 May, applicants need positive matching advice or positive advice with action required.

Applicants applying for a degree course with a 1 February intake are also entitled to admittance when they apply no later than 1 May prior to the academic year (provided they meet all the set admission requirements).

Contrary to the provisions above, the dean may, based on considerations of reasonableness and fairness, deviate from negative matching advice in individual cases if and when there are still places available in the degree course.

Application for a degree course with a 1 February intake can be made until 24:00 on 1 February.

#### Application for a degree course with an enrolment quota

The application dates specified in 1.2 do not apply for a degree course with a Selection & Placement procedure (degree courses with enrolment quotas). For these degree courses, the final application date

is 15 January (24:00) prior to the academic year. Application after 15 January is not possible for the propaedeutic phase of a degree course with an enrolment quota.

#### Application dates for a master course

Different application dates may apply for a master course. [www.han.nl/masters](http://www.han.nl/masters). The rules for application for a master course are included in chapter 6.

#### Applicant from a country outside the EU

An applicant from outside the EU has to apply via Studielink no later than 1 June prior to the academic year. This is due to the visa procedure. For application in a degree course starting on 1 February 2023, the applicant must apply no later than 1 November 2022.

### **1.3 Enrolment per 1 September or 1 February**

#### 1 February intake

There are two different intake dates for the degree course Master Molecular Life Sciences during the academic year: 1 September and 1 February.

An enrolment with a 1 February intake date applies for the remainder of the academic year (up to and including 31 August). A student who has applied and is enrolled for the February intake must re-enrol via Studielink for the following academic year (which starts on 1 September). Re-enrolling in Studielink is possible from June. Students receive an email about this from HAN to the email address linked to their Studielink account.

### **1.4 Interim enrolment**

An interim enrolment is an enrolment with a start date other than 1 September. A February intake does not count as an interim intake.

Interim enrolment is only possible if the dean deems the study programme feasible with a starting date at the moment it is actually possible for the student to be enrolled. These regulations also apply to interim enrolments and requests for interim enrolment.

#### Matching programme

If matching is mandatory, interim enrolment is only possible after the matching programme has been completed with positive matching advice or positive advice with action required.

#### Enrolment

An applicant is enrolled on the first day of the month in which all conditions for enrolment have been met, with the exception of October. If an applicant makes an enrolment application in October, they will

not be enrolled until the day they satisfy all the enrolment requirements.<sup>1</sup> In these cases, tuition fees are charged for the entire month.

#### Enrolment applies for the entire academic year

An enrolment made during or prior to the academic year applies for the entire (remaining) academic year, unless the student requests to terminate their enrolment or HAN terminates their enrolment for a legally permissible reason.

### **1.5 Application as external student**

Enrolment as an external student is only possible when the dean deems that it will not compromise the nature or interest of the education. An external student is only entitled to take exams and final assessments in the degree course for which they are enrolled and to access the facilities and collections of the institution. An exception is made if the institutional board deems that this conflicts with the nature or interest of the education.

### **1.6 Applications by international students**

In addition to the enrolment requirements, applicants from outside the EER are required to hold residence documents as specified by law. HAN applies for the student visa for the applicant. It is the applicant's own responsibility to keep an eye on deadlines and validity period(s). The Code of Conduct for International Students applies.<sup>2</sup>

### **1.7 Guaranteed start**

When the applicant meets all the enrolment obligations and requirements, they are enrolled as a student. If the applicant meets all the enrolment requirements at least 10 working days before the official start of the academic year, they are guaranteed of being enrolled at the start of the academic year and of being able to use all HAN student facilities.

### **1.8 Application withdrawal**

#### Application withdrawal by applicant

If the applicant decides they cannot or do not want to start the degree course they have applied for, they can withdraw the application via Studielink ([www.studielink.nl](http://www.studielink.nl)). The withdrawal must be submitted before the first day of the month in which the degree course starts. If they have already received a certificate of paid tuition fees, they must return the certificate to HAN.

---

<sup>1</sup>This has consequences for possible rights to student finance and the OV travel product.

<sup>2</sup>Applicants can contact the Admissions Office at [admission@han.nl](mailto:admission@han.nl) if they have any questions.

If the application was not withdrawn via Studielink before the first day of the month in which the degree course starts, the student will be enrolled provided they meet all the admission and enrolment requirements and will be charged the tuition fees for at least that month.

#### Automatic rejection of the application by HAN

If the applicant does not meet the enrolment requirements for the degree course, the enrolment application will automatically be rejected. This also applies for students who still have payment delays for previous academic years. The applicant will be reminded by HAN several times – at least twice – of obligations that have not yet been met. Applicants will receive reminders through the email address that is linked to the Studielink account. Students who were enrolled in the previous academic year will receive reminders at least through the student email address assigned to them by the HAN. A student may contact the Admissions Office if their enrolment is rejected for failing to meet the enrolment requirements and they believe this is a mistake or that they are otherwise not to blame. If the student's failure to meet the enrolment requirements should not be attributed to the student, that student may still be enrolled, provided they now meet the enrolment requirements.

### **1.9 Enrolling after binding negative study advice (BNSA) and switching degree courses**

Not applicable.

**2 EDUCATION REQUIREMENTS FOR BACHELOR OR ASSOCIATE DEGREE  
COURSE**

Not applicable.

**3 MATCHING PROGRAMME**

Not applicable.

**4 BACHELOR COURSES WITH ENROLMENT QUOTA AND DECENTRALISED  
SELECTION**

Not applicable.

**5 BACHELOR COURSES WITH ADDITIONAL REQUIREMENTS**

Not applicable.

## 6 ADMISSION TO A MASTER COURSE

Enrolment for a master course is possible when the applicant meets the education requirements and the set qualitative admission requirements. As an education requirement, the applicant must in any case hold a bachelor degree from a higher education institution or possess knowledge, understanding and skills at the level of a bachelor degree from a university or university of applied sciences.

### 6.1 Admission requirements

This section contains the qualitative admission requirements.

The following qualitative admission requirements apply for the master course in Molecular Life Sciences:

- Bachelors degree in the field of molecular life sciences (molecular biology, cell biology, biochemistry) or having the equivalent knowledge, understanding and skills according to the enrolment regulations;
- Professional use of English (B2 level of English according to the Common European Framework of Reference recommended). More information regarding English fluency can be found in [appendix B](#);
- Practical lab research experience in the field of molecular life sciences during or after the bachelors course of at least 5 months.

If an applicant does not meet (one of) the admission requirements, or cannot submit any proof of this, they can take part in an admission assessment to prove the required qualifications.

There are additional requirements for the full-time course. These can be found in [appendix C](#).

For the part-time course there are employment requirements. These can be found in [appendix D](#).

### 6.2 Master course with enrolment quota

The master courses below have set a maximum for the number of students who can be enrolled in the degree course each year. The maximum number of students is published on the webpages of the degree course at [www.han.nl](http://www.han.nl).

Degree course name
Applied Data Science
Circular Economics
Neurorehabilitation
Design of Contemporary Learning
Arts Therapies

The master course Molecular Life Sciences has no set maximum for the number of students who can start the degree course each year.

### 6.3 Procedure when maximum number of applications is exceeded

Not applicable.

## 7 TUITION FEES

### 7.1 General provisions

Students are required to pay the statutory tuition fees or institutional tuition fees for every academic year that they are enrolled in a degree course. The institutional tuition fees set by HAN will be announced before the start of the academic year.

The applicant can find the amounts they will owe as a student at [www.han.nl/collegegeld](http://www.han.nl/collegegeld).

An applicant who enrolls in a degree course during the academic year will pay one-twelfth of the annual tuition fees applicable to them for each month remaining in the academic year.

### 7.2 Statutory tuition fees

A student who meets each of the conditions below will be charged the statutory tuition fees.

- The student is enrolled in a government funded degree course at HAN;
- The student falls in one of the following categories:
  - The student is a national of one of the EU countries, Norway, Switzerland, Iceland, Lichtenstein or Suriname;
  - The student is a family member of an EU citizen living in the Netherlands or
  - The student has a residence permit that makes them eligible for student finance.

At the start of the academic year, the student has not already earned a similar diploma for a government funded degree course in higher education.<sup>3</sup>

Contrary to the previous sentence, a student also pays statutory tuition fees if:

- they have already earned a (bachelor or master) degree, but are starting a health or education degree course for the first time.<sup>4</sup>
- they started the second degree course during their enrolment for the first degree course and, also after earning the first degree, continued to follow the second degree course without interruption.

---

<sup>3</sup>So no associate degree certificate if they enrol for an associate degree course, no bachelor degree certificate if they enrol for an associate degree course or bachelor course and no master degree certificate if they enrol for a master course. Furthermore, the applicant may not have earned a bachelor or master degree certificate if they enrol in an associate degree course.

<sup>4</sup>The answer to whether a degree course falls in the category of health or education can be found in the DUO register of degree courses in higher education (CROHO). See the [DUO app](#), or <https://apps.duo.nl/MCROHO/pages/zoeken.jsf>. Enter the BRIN code for HAN, 25KB, or search for 'Hogeschool van Arnhem en Nijmegen', and/or the name of the degree course. After clicking on the right degree course (click on 'details'), an information page appears. The category in which degree course is registered can be found in the section 'Opleiding' under the heading 'Onderdeel'.

The student who meets the requirements as mentioned above and is enrolled in a part-time or work-study degree course is required to pay that part of the statutory tuition fees that is equal to the full-time amount (full statutory tuition fees).

### **7.3 Institutional tuition fees**

Students who are not eligible for the statutory tuition fees have to pay the institutional tuition fees. The amount of the institutional tuition fees is stipulated in the HAN Tuition Fees Decision and can be found at [www.han.nl/collegegeld](http://www.han.nl/collegegeld).

### **7.4 Final assessment fee for external students**

The final assessment fee that external students have to pay is the same as the statutory full-time tuition fees.

External students are not entitled to a refund of the final assessment fee if they terminate their enrolment during the academic year.

### **7.5 Lowered statutory tuition fees**

The tuition fees for the first year will be halved for each applicant who:

- has enrolled for the first time as a student in a full-time, part-time or work-study bachelor course or associate degree course at a government funded university or university of applied sciences and has not previously been enrolled in Dutch higher education; and
- is paying the statutory tuition fees.

The tuition fees will not be lowered for students who:

- were already enrolled in a degree course in Dutch higher education before the 2022-2023 academic year;
- are taking a master course;
- are paying institutional tuition fees;
- are participating in the demand-based funding experiment at HAN.

### **7.6 International students**

In addition to payment of tuition fees, students from countries outside the EER have to meet the financial requirements set by the Immigration and Naturalisation Service (the financial guarantee).<sup>5</sup>

---

<sup>5</sup>Information about this can be found on [the website for international students of HAN](#) or through the Admissions Office. If the link to the website does not work, copy the following address to your browser: <https://hanuniversity.com/international/en/study-and-living/admissions/residence-visa-info/financial-guarantee/#financial-guarantee>.

## 7.7 Payment of tuition fees and administration costs

- Tuition fees may be paid either as a lump sum or in 10 instalments by direct debit (for the September intake).
- Students who pay in instalments are charged €24 for administration costs.
- When paying in instalments, they are collected in the months of September to June, around the 25th day of the month.
- The direct debit is arranged by issuing a digital direct debit authorisation in the Studielink account of the student or applicant.
- When a digital direct debit authorisation is not possible, but the student does have an account at a bank within the SEPA area, a digital authorisation is issued in the Studielink account of the student or applicant.
- Payment cannot be made in instalments if neither a digital direct debit authorisation or digital authorisation are possible.
- When enrolling during the academic year, the number of months between September and the enrolment date will be deducted from the tuition fees. If payment is made in instalments, the above will also apply here.
- If in a particular academic year a student has already paid statutory tuition fees to a university or other university of applied sciences that are higher than or equal to the statutory tuition fees owed to HAN, and that student enrolls as a student at HAN, they will not pay statutory tuition fees to HAN in that year and will submit a certificate of paid tuition fees issued by the other educational institution. If the amount paid elsewhere is lower than the statutory tuition fees owed at HAN, the student or applicant submits the certificate of paid tuition fees from the other educational institution and pays HAN the difference between the two amounts.
- If the student has outstanding payments, they need to settle them before 1 September 2022; unless the student and HAN have made a payment arrangement.

## 7.8 Refund of tuition fees

### Refund for payment in lump sum

A student who terminates their enrolment during the academic year (interim termination) is entitled to a refund of the tuition fees for each month remaining in the academic year after the termination of enrolment. This refund is automatically calculated by the Tuition Fees Administration and paid out as soon as the request for termination of enrolment from Studielink has been processed by the Student Administration Office (in Dutch: Student Inschrijf Administratie, or SIA).

Termination of enrolment on 1 July (end date 30 June) or 1 August (end date 31 July) does not entitle a student to a refund of the tuition fees and the student will still be required to pay tuition fees for the entire academic year.

The above also applies in a situation where a student dies in the course of the academic year. The refund is then paid to the estate.

If HAN has issued a certificate of paid tuition fees, the student must first return the original HAN certificate of paid tuition fees to HAN before HAN can refund any part of the tuition fee.

#### Refund for payment in instalments

When tuition fees are paid in instalments, termination of the enrolment does not entitle the student to a refund of an already paid instalment.

## **8 RE-ENROLMENT AND TERMINATION OF ENROLMENT**

### **8.1 Re-enrolment**

The student will receive a reminder by email (to their email address recorded in Studielink) to make a re-enrolment application in Studielink for the new academic year. After submitting this application, the student must issue a digital direct debit authorisation through Studielink.

Any outstanding payments need to be settled before the student can be re-enrolled for the 2022-2023 academic year, unless a different payment arrangement has been made with HAN.

When the student does not meet the requirements for re-enrolment, their enrolment is terminated for the relevant degree course at HAN as of the end of the previous academic year (31 August).<sup>6</sup>

### **8.2 Terminating enrolment**

To terminate an enrolment before or after the start of the degree course, the student needs to submit a request for termination of enrolment in Studielink ([www.studielink.nl](http://www.studielink.nl)).

When the student already has a certificate of enrolment and/or certificate of paid tuition fees at HAN, this certificate must be returned to HAN after the request for termination of enrolment is submitted in Studielink.

The enrolment will be terminated as of the following month, i.e. the month after the request was received by HAN. Retroactive termination of enrolment is not possible. A request for termination of enrolment submitted in June, July or August leads to a termination of enrolment as of 31 August. In June or July, a student may opt for termination of enrolment on a date other than 31 August in Studielink.

---

<sup>6</sup> A student who does not wish to be re-enrolled should arrange this in Studielink (see the information provided about this on [www.studielink.nl](http://www.studielink.nl)). By doing so the student avoids repeated notices, reminders etc.

### Termination of enrolment by HAN

In the following cases, HAN can terminate an enrolment as of the following month even though there has been no request for termination of enrolment:

- When the students has been given binding negative study advice (i.e. BNSA in June, July or August that leads to a termination of enrolment on 31 August);
- Through a decision by the Executive Board because of:
  - irrevocably confirmed serious fraud;
  - breach of the internal rules and disciplinary measures;
  - the causing of a serious nuisance in the buildings and on the grounds; see art. 7.57h of the Higher Education and Research Act;
  - an irrevocable decision by the Executive Board that a student has behaved or expressed themselves in a way that shows them to be unsuitable to perform one or more of the professions they are being educated for in the degree course or that shows them to be unsuitable to prepare for practice of the profession; see article 7.42a of the Higher Education and Research Act and the HAN Student Code of Conduct.
- Because of not paying tuition fees or final assessment fees. The enrolment termination takes place as of the second month following the last demand for payment.

### Refund of tuition fees

A student whose enrolment is terminated during the academic year is entitled to a refund of the tuition fees for each month remaining in the academic year after the termination of enrolment, unless the student pays (has been paying) the tuition in instalments.

If the student's enrolment is terminated because they did not pay the tuition or exam fees, they will not be entitled to a refund of the tuition fees.

In all other respects, the provisions from section 7.8 regarding the refund of tuition fees will apply.

### Settlement

Upon termination of enrolment, HAN is authorised to set off what the student owes HAN against what HAN may owe the student.

## **9 COMPLAINTS AND OBJECTIONS**

If an applicant does not agree with a decision based on these regulations, they can submit a written objection to the Disputes Advisory Committee through the Complaints and Disputes Office, [bureauklachtengeschi@han.nl](mailto:bureauklachtengeschi@han.nl). The procedure and further information can be found at [Complaints and objections \(han.nl\)](#).

## **APPENDIX B**

### **Sufficient language proficiency**

Students can demonstrate their English proficiency by either of the following options:

- IELTS score of at least 6.5
- TOEFL score of 90 or higher (internet-based)
- Cambridge FCE Grade B minimum score 176 / CAE / CPE

## **APPENDIX C**

### **Additional requirements for the full-time course**

Students taking part in the full-time format of the Master Molecular Life Sciences need an internship placement during the complete study duration. This internship is required to carry out the activities and achieve the learning goals of the units of study Research and Product Development Skills 1 &2, Managing Projects 1&2, and Graduation Project.

The education programme supports students in finding a suitable internship. To this end, applicants contact the programme ([master.mls@han.nl](mailto:master.mls@han.nl)).

## **APPENDIX D**

### **Employment requirements for part-time degree courses**

Students taking part in the part-time variant of this degree course need to meet certain employment requirements. Those requirements also apply if you are self-employed.

The employment must enable students to carry out the activities and achieve the learning goals of the units of study Research and Product Development Skills 1 & 2, Managing Projects 1 & 2 and the Graduation Project.
